## Investment objective

The Share Class aims to achieve a return on your investment, through a combination of capital growth and income on the Funds assets, which reflects the return of the S&P Global Water Index. The Share Class is passively managed and aims to invest so far as possible and practicable in the equity securities that make up the Index. The Index measures the performance of publicly traded companies in the global water industry, from both developed and emerging markets that meet the index providers eligibility criteria and are not excluded by the index providers ESG exclusionary criteria.
