## Investment objective

The aim of the Sub-fund is to provide long term capital growth while at the same time promoting certain ESG (i.e. Environmental, Social and corporate Governance) characteristics and integrating sustainability risks in the investment process. The Sub-fund will take exposure of at least two-thirds of its total assets to equities of companies all over the world which benefit from the expected increase in consumer spending. The Sub-fund may hold the major part of its investments in companies domiciled in emerging markets or in companies that derive the majority of their revenues from emerging countries.
