## Investment objective

At all times, this sub-fund invests at least 75% of its assets in equities and/or equity equivalent securities issued by companies that conduct the majority of their business activities in sectors that seem to have greater-than-average potential for growth, relatively stable growth in profits and that have their registered offices or conduct the majority of their business activities in the United States of America. When deciding on allocations and selecting securities, the manager will seek to diversify exposure to different sectors and issuers in order to reduce risk.
